SOUNDSCAPE

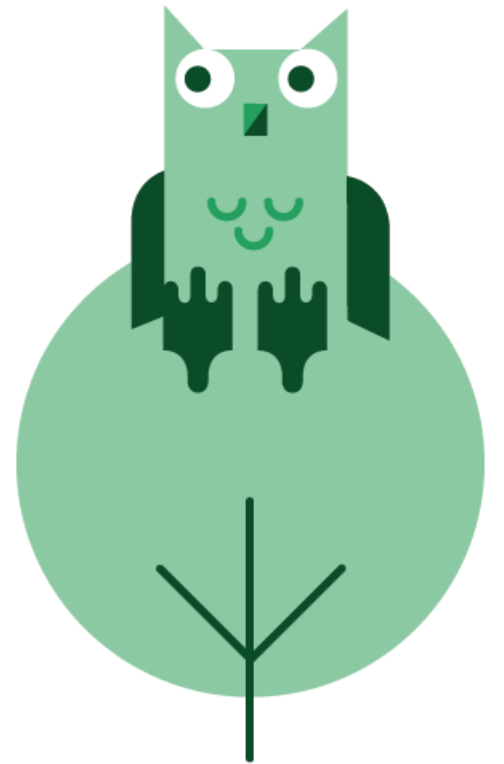

A Soundwalk is...

- For everyone's enjoyment and learning
- Any walk "whose main purpose is listening to the environment. It is exposing our ears to every sound around us no matter where we are."
- Environmental sounds are not just "noise" but "information" telling us what's happening
- Each soundwalk lasts less than one hour

A Soundscape is...

- Every sound in your landscape, wherever you are
- Always changing, no sound is ever the same
- Not always noticed and often ignored
- A natural resource
- A design made in sound
